

Harvia 36

Great baths for great crowds

Harvia 36 is a power stove for big saunas.

Its power and characteristics enable comfortable bathing, even for very big crowds.

Thanks to the large amount of stones, bathing can be enjoyed for a long time, even if the fire dies down in between. This stove will not fall short on power. The air-flow spoiler is made of stainless steel. The adjustable legs make the stove easy to place in the sauna.

Can be equipped with either a side or pipe-mounted water heater.

The size of the sauna room is 14–36 m³ and the maximum amount of stones is 60 kg.

Technical information:

Model	WK360
Sauna room min m ³	14
Sauna room max m ³	36
Stone space max kg	60
Dimensions/mm width	510
Dimensions/mm height	810
Dimensions/mm depth	510
Weight kg	70
Heater output kW	30
Safety distance/mm: to sides and back	500
Safety distance/mm: to front	500
Safety distance /mm: from upper surface to ceiling min.	1200
Fire space cover / mm	6
Location of smoke outlets at rear/mm: from floor to centre of hole	680
Location of smoke outlets on top/mm: from rear edge to centre of hole	130
Diameter of smoke outlet / mm	115
